The Director of the Mint
Philadelphia

Dear Sir :-

Some time ago I received a report from the chief of police of Rio-de-Janeiro, in which it was stated that his monthly salary was 996f000. Now I would like to know what it is. Does it mean 996000 reis and if so what is the value of one reis (or re, or rei or whatever it may be) The lowest Brazilian unit, I can find in your circular of "valuation of foreign coins" is the milreis which is given at about 54 cts. I have written to several Brazilian officials in this country on this subject without obtaining any ~~tho~~ satisfactory information.

If you can enlighten me on this subject I will consider it a great favor.

Yours very respectfully
Geo. W. Hale

The Director o the Mint
Philadelphia

Dear Sir: -

Some time ago I received a report from the chief of police of Rio-de-Janeiro, in which it was stated that his monthly salary was 996/000. Now I would like to know what it is. Does it mean 996000 reis and if so what is the value of one reis (or re, or rei or whatever it may be). The lowest united Brazilian I can find in your circular of "valuation of foreign coins" is the milreis which is given at about 54 cts. I have written to several Brazilian officials in this country on this subject without obtaining any satisfactory information.

If you can enlighten me on this subject I will consider it a great favor.

Yours very respectfully
Geo. W. Hale
